

Did you know you can customize PRIME NExT software to your individual needs?

The Notebook Control tab is a convenient way to customize your tab settings. Use this feature to turn on or off tabs you may or may not use. The Notebook Control setting is designed to customize the program unique to the user(s). To set up your PRIME NExT Notebook, here's what you do:

- Click on the Tools button from the top bar
- Click on the Notebook Control tab below
- Click on Studies in the box labeled "Active PRIME NExT Application Notebook Pages"
- Hold down your Control key on your keyboard and click on the each items in the list
- To save your settings:
 - Click on "Reset Notebook Pages and Save Settings" to permanetly save the settings
 - Click on "Reset Notebook Pages" temporarily save the settings for the session
